NIKI VALIDATION & PRICES UPDATE

PULLING ITEMS FROM NIKI

- Pushing items on NIKI
- Merging NIKI items
- Progressing & Pulled data results

In the process of pulling items on NIKI, click on the NIKI button in the system as shown in the image below:

For the first time using NIKI to pull items, the above form is required with Distributor Name and Business Category. After filling submit.

MERGE NIKI ITEMS

After clinking on NIKI to pull item, we have three (3) different buttons as follow:

- ✤MY MERGE: pushing items to NIKI and pulling for new validated items on individual account.
- INDUSTRY MARGE: Pulling items which were transformed in general
- ✤ REVERT: stopping the process that is currently occurring

Upon clicking on MY MERGE, the system calculate the number of items different from the previous pull. Both the transformed which will merge in the Database and the created which will be added on NIKI as it is shown in the following images.

CHALLENGES ON PRICE UPDATE

- Items with different names on RHIA and in the system. The item prices is updated but no stock. Also, in case an item with similar to the on in RHIA have status of sommeil, still the system update the price. Client can change the item in case it update the one in sommeil and can also change the new price to the item with stock
- When an item is not available in the system, it automatically create it with the price.

THANK YOU
