

ERP

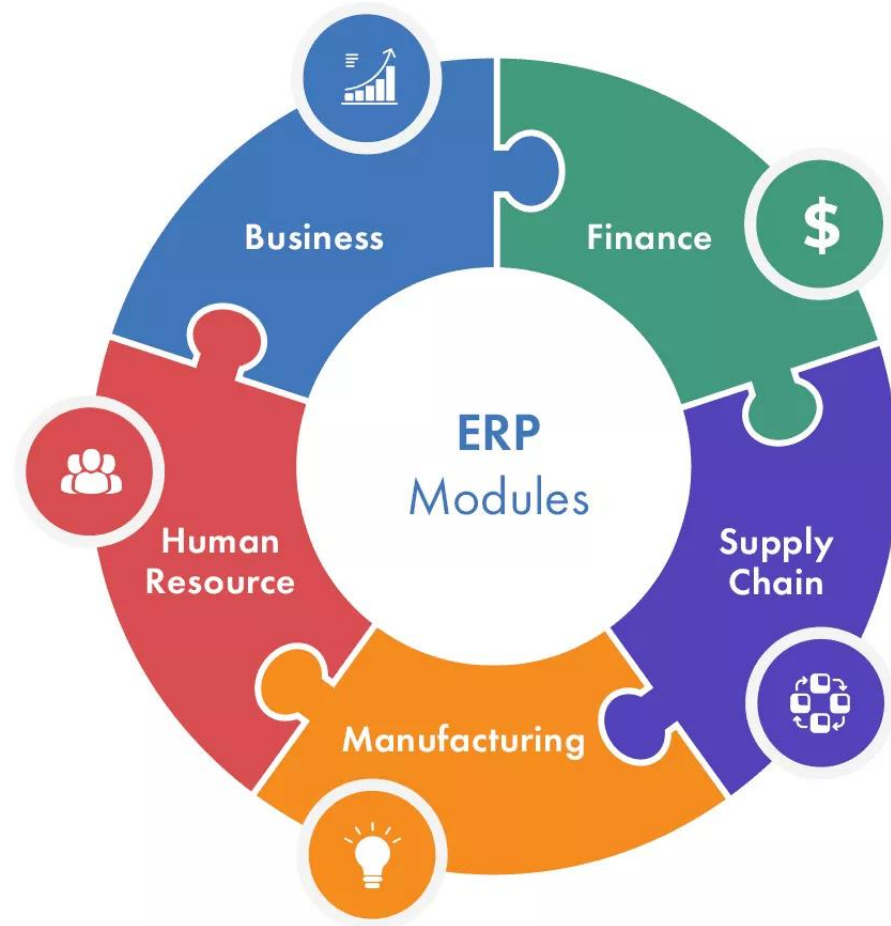

ERP

ERP is a type of business management software which stands for **Enterprise Resource Planning**. It is used for selling and in stock management (SALES & STOCK), it was built with the purpose of monitoring and maintaining the stocked products. It has the ability to generate reports, balance stock and give detailed reports about the purchased products. Also, it can be used in supplying to other companies.

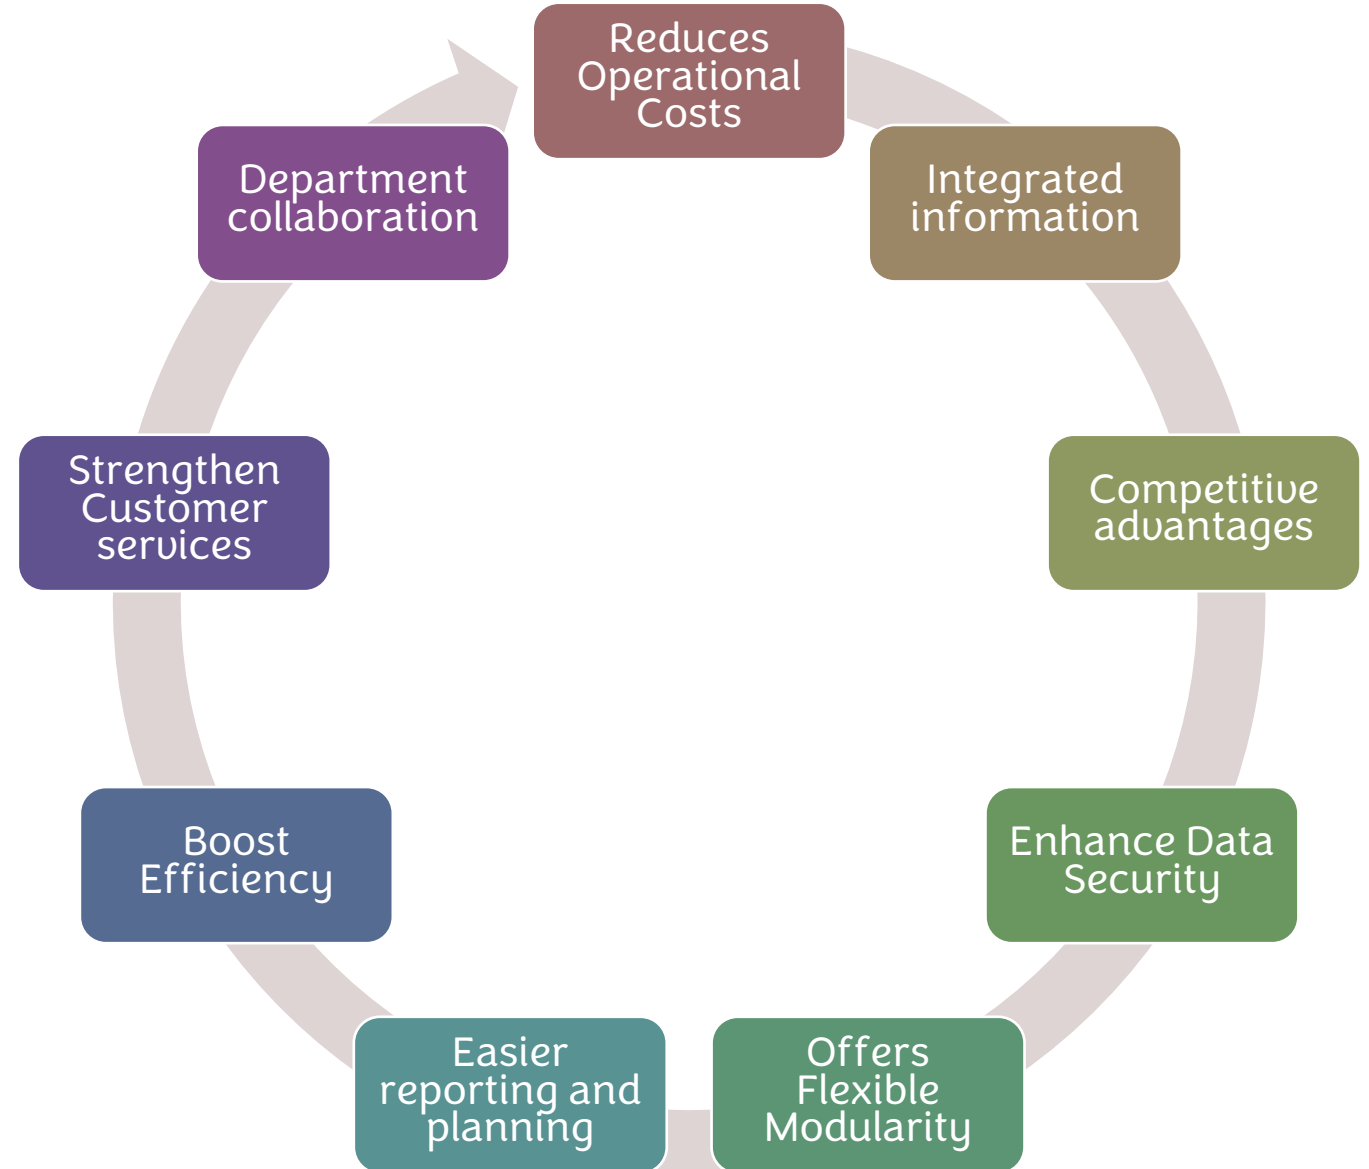

WHY ERP

ERP plays vital role in the marketing and promotion of your business. By providing management assistance to your entire department, it does well for the marketing and sales department as well. The department can investigate the things with a better approach and make difference to sales sheet.

ERP has modules in different aspects, for instance in the following image.

BENEFIT OF ERP?

ISHYIGA ERP

Launching the ERP application, the following image is the main gate. It is a page encountered which combined basically all shortcuts to the need interface. With this main gate, you can access STOCK, SALES, ITEMS, EBM, RRA PORTAL.....

MAIN FUNCTIONS IN ERP

- Product List
- Making Invoices
- Tier/Suppliers
- Loading orders
- Publish Sales
- Statistics
- Transactions Reports
- Processing
- Manufacturing

With ERP, there are many different functions but among them below are the mainly used.

ERP STOCK

This interface has a lot of functionalities as it shown in this image, this is the part which is used for stock management, checking of the batch number of the items, creates commandes (orders), creating suppliers, sales price, calculations, suppliers report, transfer and many other functions.

The screenshot displays the ERP Stock management interface. On the left, a vertical menu lists various functions: VIEW, ALGORITHM, AUTO ORDER, 3D BP, EDIT ITEM, CREATE, PROFORMA, ORDER, TEMPORARY, DELIVERY, MVT IN, MVT OUT, TRANSFER, MANUFACTURING, TRACKING, VIEW EVENTS, SCAN, DOWNLOAD, INVENTORY, CLOUD, ALERTS, FAMILLE, EMPLOYEE, FORECAST, SETTINGS, and STATISTIC REPORT. The main area shows a list of items with columns for CODE, NAME, QUANTITY, BATCH, EXPIRING, AMOUNT, and VTA. The current item selected is '250 GR MUKWANO (SOA250G00003)()****0.00'. Below the list, there are search fields for 'SEARCH CURRENT:' and 'SEARCH ALL:'. At the top right, there are buttons for 'ALL', 'UPDATE', 'ONE', 'Reduction', and 'RELOAD'. At the bottom right, there are buttons for 'SEND', 'SAVE', 'DIRECT', 'CALCUL', 'V_REFRE...', 'SIM', 'GROUPAGE', and 'DUPLICATION'. The 'AMOUNT' field shows '0.0RWFF'.

CODE	NAME	QUANTITY	BATCH	EXPIRING	AMOUNT	VTA
	250 GR MUKWANO (SOA250G00003)()****0.00
