

ISHYIGA

POS

ISHYIGA POS

The retailers use ISHYIGA POS. Using this system, the retailers will have access to transactions, proforma, price management, promotions, client's management, items management (NIKI), auto compute/send/load orders, alert, inventories, X & Z reports, barcode setup, reports and issuing EBM invoices.

WHY ISHYIGA POS

ISHYIGA POS plays a vital role in the marketing and promotion of your business. By providing management assistance to your entire department, it does well also for the marketing and sales department. The department can investigate the things with a better approach and make difference to sales sheet

BENEFIT OF USING ISHYIGA POS

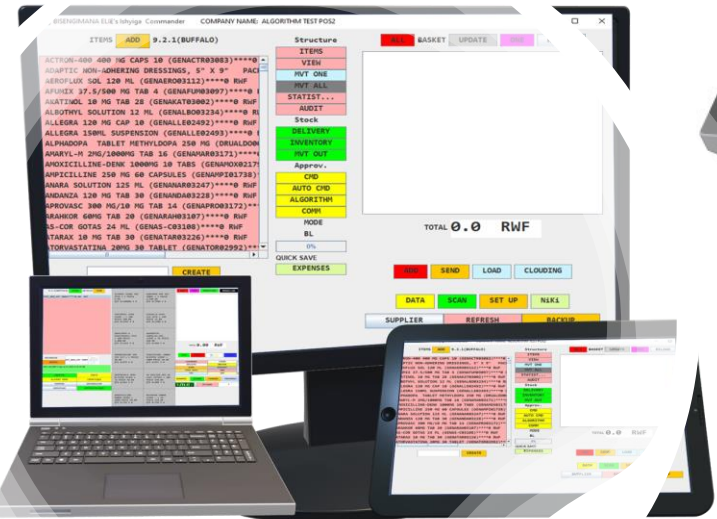

- It allows you to manage your inventory in real-time and to know the number of products you own over a given period.
- Easy invoice management is especially important for your accounting operations
- The employee selects the products the consumer wants to buy, and the system automatically calculates the price
- POS, allows you to see sales per employee, their hours worked, and sales per time slot
- This allows you to manage and control your operations even if you are away from your store
- The software allows you to create reports automatically to have a global view of your business.

ISHYIGA POS COMPATIBILITY

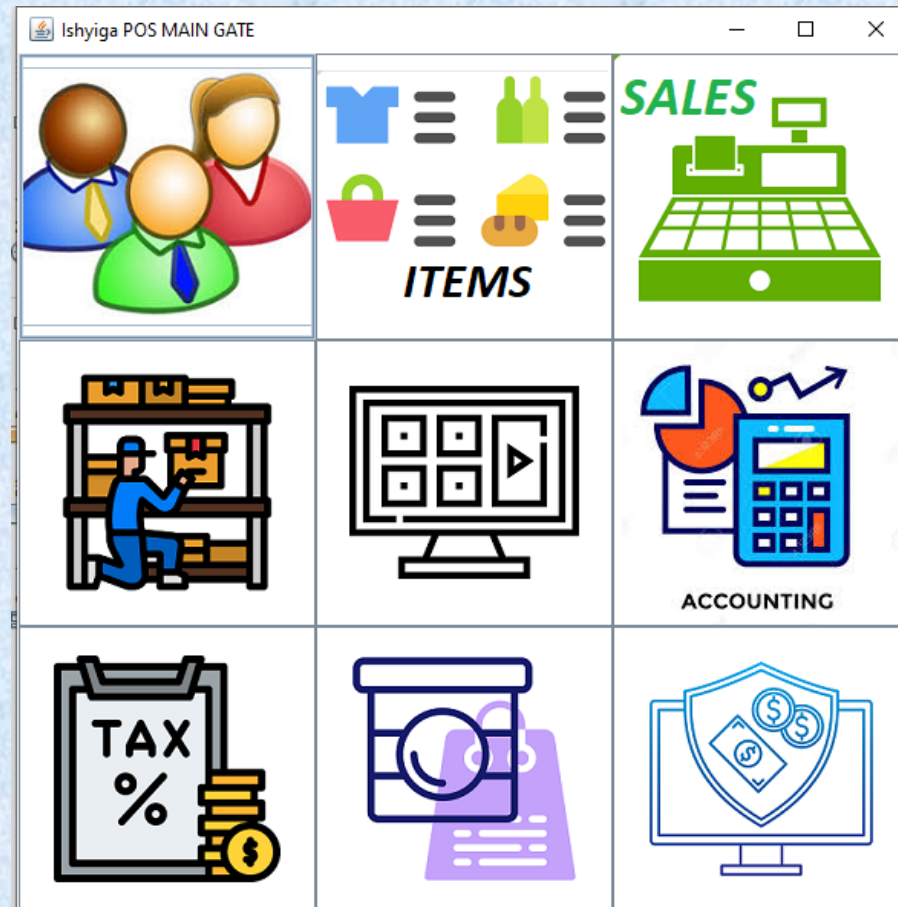

ISHYIGA POS is compatible with different devices, including Desktop computers, laptops, tablets and touchscreen POS machine.

ISHYIGA POS can run in single windows device, but for better operations, management and boosting the business using additional devices such as scanner and printer to issue a printed invoice to clients will be of advantage.

ISHYIGA POS MAINGATE

With ISHYIGA POS, upon starting the system for usage it has the **Maingate** as shown in this image which is directs to all related and needed interfaces.

ISHYIGA POS INTERFACES
